## STATE FINANCES.

It may be some comfort to the State's financial officers to know that our financial exhibit has been extensively copied, has received liberal and intelligent comment, and has been substantially endorsed as correct. The principal papers of the State, not to speak of outsiders, have seemed to think that the matter demanded such comment as the GAZETTE has given and we are still anxious that the hard-working officials in Carson shall keep posted on the progress of affairs. The Virginia Chronicle, Carson Appeal and Tribune, Ruby Hill Mining News and other State papers have copied our summary without contradiction. The Carson Index, Silver State and San Francisco Chronicle have discussed the matter and agreed with the GAZETTE. The Eureka Sentinel says: "The State is hanging upon the verge etc. The Eureka Leader has been the only paper to attempt an amendment of our conclusions, and it retired early from the fight."

## BOYD'S MISTAKE.

After reading the facts furnished by the GAZETTE concerning the deficiency in the County Treasury, Senator Powning says in his paper:

It is clearly evident to us that Treasury Boyd is greatly to blame. Boyd went into office January 1, 1879, and accepted the checks as they were. They represented so much cash, and were as good as gold at the time. The Norton matter was no concern of his.

Mr. Boyd should, especially after Norton's mishap, have refused to have accepted anything other than gold and silver for the amount due the county as called for by the Auditor's books.

The Norton bondsmen owe the Savings Bank about \$1,300, or \$500 more than is represented by the \$800 certificate. With that paid, \$1,500 would remain as a balance, and the proper person or persons should pay it to the county.

## EDITORIAL NOTES.

The Gold Hill News properly says: "The names of candidates for Governor of Nevada for the next term are already being presented by the State press, probably in some instances unauthorized. Although it is early to discuss the merits of any candidate, it may be said that appearances indicate that the general public will demand one pre-requisite in all candidates that is, decision of character, or moral backbone. The people want no weak, timid, time-serving man in the chair of the Executive of this State, but want one who has sufficient backbone to uphold and defend the right under all circumstances."

General Maximino Jerez, Nicaraguan Minister to the United States, died suddenly at his residence, Washington, yesterday afternoon. The General had been out during the day, and called at the Executive Mansion early in the afternoon, returning to his residence before the usual hour, and not responding to the call for dinner, a messenger went to his room to call him and found him sitting by an open window, dead.

Inquiries as to the prosperity of negro farmers in Louisiana were sent to all parts of the State by the New Orleans Picayune, and the replies show clearly that "it is within the reasonable ambition of any healthy colored man now to own land and to establish himself in an independency."

A young lady of inquiring turn of mind writes to know who are "the boys" with whom her brother and cousins go up to Redding to have some fun? Why, don't you know, Julia? Apple John, Tom and Jerry, Bob, Bill Yards and James Jamba.—People's Cause.

Senator James Fair did not donate the silver for the inscription on the

Nevada Tablet. He was requested to do so, but refused, and said: "My son, would not other metal cheaper than silver answer the purpose?"

Great things were expected when the new school house was built. Instead of improving the discipline of the school, it has been growing worse, especially in the primaries. The teachers should be selected with the greatest care.

If the Comstock continues to sink, it is likely that the demand for lumber will get so small that the expensive works on the east side of Tahoe will be abandoned, and everything come out via Truckee.

An Ohio woman owed her hired man \$320. She married him to square the account, and then for \$80 got a divorce, thus saving \$240.

Maud S. has again made the fastest mile. The first quarter was trotted in 13 3/4, half in 1:05 1/4, three-quarters 1:37 1/4, mile 2:10 1/4.

## The Marrying Squire.

A parallel to the New York preacher who lately attained some notoriety by the great number of marriages at which he claimed to have officiated, is found in the quaint old town of Alexandria, Pa. "The marrying squire," as the individual in question is called, is the son of a "squire" who married 900 couples, and he proves the superiority of the present generation by more than doubling his father's record. Up to the 25th of last month he had united 1846 couples. Of course he has kept a careful register of them all, giving dates, names, residences and the amount of the fees. The largest fee was \$20, the smallest 50 cents and the average about \$3. Among the experiences of his long career—for the squire is 68 years old—he relates the story of a man who had no money to pay the fee and wanted to get married "on tick." The knot was tied with a promise of \$3 in a few weeks. Three months later came a letter with the money, telling the squire that if he would only untie the knot he would remit double the fee and thank him besides.

During July there were 98 deaths at Havana from Yellow fever, and during the week ending August 5th, 36, with 200 cases in the city. During June there were 235 deaths from Yellow fever at Vera Cruz.

The Gila river is now so high as to require the use of boats in crossing. It is said that about twelve years ago the mail carrier from Maricopa got caught between the Gila and Salt rivers and was unable to cross for six weeks.

Southern Arizona exchanges are filled with accounts of floods that have done great damage to mills, dams, crops etc. Every river was up, and old-time dry places were bristling with water. One train was 72 hours making its way from Yuma to Tucson less than 800 miles.

## THE CALIFORNIA.

From \$64,240,000 in the Market Down to a Valuation of \$351,000.

The publication of the delinquent list of the California mining company occupies eleven columns in the Chronicle. It contains 40,000 names and is the largest delinquent list ever published on the coast. The Stock Report gives a condensed history of the mine; The mine was segregated from the Con. Virginia in 1874, and was called in the Board for the first time in September of that year. During September it ranged from \$37 to \$38 1/2 per share. In October it sold as high as \$69 and as low as \$32. In November the range was from \$53 to \$115. In December the excitement over the bonanza increased and the price advanced to \$520 per share, \$120 being the lowest price the stock sold for during the month. The month of January, 1875, witnessed the culmination of the great bonanza sensation. Under an almost irrepressible demand California stock advanced to \$780 per share. At this time Con. Virginia was selling for \$700 per share. In the same month—January, 1875—California receded to \$240 per share and Con. Virginia to \$497. In the month of February California sold as high as \$404 and as low as \$46, the lowest point reached by the stock during the year 1875. December of 75 saw the stock fluctuating from \$63 1/2 to \$77 1/2. The stock did not reach the \$100 mark after 1875. At the time the stock sold above the \$100 mark the shares in the corporation numbered 108,000. The lowest figure reached by California on the 540,000 share basis is 65 cents, the bed-rock price last month.

### The Wonderful List.

#### N. Y. Sun

It is now announced that Liezt, who has been inhaling the intoxicating breeze at Antwerp, will succeed Rubenstein in London. The grand festival in his honor at Antwerp called together the chief representatives of musical art on the Continent, and since the entrance of Charles V, quiet, staid Antwerp never saw such excitement. Liezt is pictured as growing old, and the likeness to Dante, almost a reproach to him in his youth, is now an element of sympathy. The Albo, for such he still is, wears a soubrette's sort of compromise between the Roman Catholic and Protestant costume, of fine serge like the ordinary Roman Catholic soutane, but cut in the fashion of a long, collarless coat of the American clergy. The bands round the neck are of linen, snow white. He generally carries his hat in his hand, and the long gray hair, still abundant and flowing, falls over his shoulders and down each side of his face with such striking effect that he at once draws attention. His head is generally thrown back, as if contemplating the skies, and his lips are always parted, as if he were about to break forth into some rhapsody which he had been rehearsing in his train. His power as an artist is weird and wonderful as ever.

Removed to the Old Stand.

During the last session of the Legislature the raid against "Slickens" began. A short time ago the farmers presented their side of the question in a powerful appeal to the sympathies of the people of the State. Now come the miners, and present their side. And we confess to some surprise at the array of names on the "Board of Council" of the Miners' Association, and though most of them are residents of San Francisco, yet they represent millions spent for the development of the mines, and some have made the mountains their home for years. These thirteen gentlemen could score up about as many millions, though money does not count in this contest so much as brains, reason and logic. The points they make are: First, that the mines have given the world about \$1,300,000,000, washed out of the soil. Second, the miners are the very men who made California. They were the first on the ground, and the farms in the valley were made valuable by the work of the miners. Third \$80,000,000 will not buy the mines as they now stand. Fourth, they are now producing \$13,000,000 a year. Fifth this property needs protection as much as farms. Sixth, the farms employ as many, if not more, Chinamen than the mines. Seventh, stopping work on the mines would ruin the mining counties. Eighth, strike a balance of the equities and the mines have it, because they are benefiting the whole world, while the ruined farmers are few in the comparison. The actual land ruined is not 50,000 acres, nor the loss \$3,000,000. Ninth, the "Debris Act" provides the way to stop the devastation of land to a great extent. And last of all, by great care on both sides nobody need be ruined. The money likely to be spent in litigation would make the farmers safe. Therefore stop the suit and arbitrate.

Patience for any number of stock at M. U. Lake's ranch, at \$3 a month. Apply to Geo. H. Douglas.
